⁴ [Thomas Elliott S39490](#)

⁵ [Micajah Annis S34627](#)

⁶ This name appears twice in this list

⁷ A [William Whaley S37532](#) was pensioned, but he claimed service later in the war under Col. Abraham Buford. Consequently, I think this is a different man, one who did not obtain a pension from the federal government.

⁸ This may be the man whose widow filed for pension based on his service in the Virginia Continental Line [George](#)

[Notes:

The quality of the digital images of this document is poor. The way it is posted makes it difficult to be absolutely positive that the notations align properly, so there may be some errors in the attribution of the notations to particular veterans. The notations in parenthetical italics are in a different handwriting than the rest of the document. It is my guess that the notations in the parenthetical italics were made by the Register of land warrants in Richmond. All of the other notations appear to be in the same handwriting as the original list of veterans. Also, because of formatting limitations, I was not able to duplicate the manner in which the register of land warrants indicated that no warrant had been issued to particular veterans. That was indicated by large "}" marking groups of many of the veterans' names.]
