NOTES:

There is no date or caption to the list. A note preceding it reads, "This appears to be a copy for the original herewith." From examination of many pension and bounty-land application of the named soldiers it is apparent that the list is mainly of Continental officers and soldiers who served until the end of the war in 1783. The list may have been used to determine which soldiers or heirs were eligible for bounty land under legislation of the Continental Congress of 16 Sep 1776.

Surnames were listed first, followed by middle initials, if any, then given names. The sequence is reversed here to facilitate computer searching, and alternative spellings and notes are added in brackets. Most of the listed soldiers applied for pensions or bounty land.
