Pension Application of William Anderson R203

MD

Transcribed and annotated by C. Leon Harris. Revised 23 July 2015.

The State of Ohio,

Personally appeared before the subscriber judge of the Supreme court of Ohio William Anderson, who being duly sworn states that about twenty days after the Battle of Brandywine [11 Sep 1777] he enlisted as a private soldier under Captain Doberry who was attached to the sixth regiment of the Maryland troops on Continental establishment. that he was afterwards transfered to the artillery in which he continued eighteen months. that he continued as a soldier in the continental army, being transfered to different parts of the army, until after the capture of Cornwallis [19 Oct 1781], at which engagement he was present, and in which he was severely wounded. He received his discharge, but long since lost it. The said William Anderson further states, that he is now upwards of sixty two years old, and is infirm from the wounds he received in the revolutionary war as to be unable to procure a living, and he is so poor, as for some years past, to depend on charity, and the poor laws of the state, for his food and clothing.

Personally appeared before the subscriber Judge of the Supreme Court the within named Wm Anderson, who states that in his deposition on the other side there was by some means a mistake as to the number of the regiment – it was the 4th Regt in which this affiant served under Capt Doberry – commanded by Col. Thaxtor[?] – in which, he served eleven months. After which, he was transferred as stated in his former deposition.

It is very probable that I make this mistake in the former deposition of Wm Anderson. By examining the rolls of the 4 Regt it can be ascertained. The deponent states that at the taking of Cornwallis he was badly wounded, and as he understood afterwards, was returned as one of the slain.

William Anderson personally appeared before and testified that he is not positive as to the name of Doberry and on hearing the name of Carberry mentioned as a captain in the regiment in which he served, he thinks that he has more than likely been mistaken, as his memory at best is very treacherous. He is confident of having served, as before stated.

John Mclean/ Judge Sup Court.

It is perhaps proper that I should state that on my asking the above applicant, whether the Captains name under whom he served was not Carberry, he immediately replied that he believed it was, and that he had mistaken the name of Carberry for Doberry. I have not a doubt that he performed the service as stated in his deposition. His wounds have rendered him a cripple ever since he received them. Both legs or thighs appear to be broken, and his arm in one or two places. He is now, and has been for some years a public pauper, supported by the Township. He is rendered stupid by age and infirmities – he can scarcely recollect any thing accurately. It seems to me that he is worthy of support from the government on account of the faithful services he has rendered.
