[Methodology: Spelling, punctuation and/or grammar have been corrected in some instances for ease of reading and to facilitate searches of the database. Where the meaning is not compromised by adhering to the spelling, punctuation or grammar, no change has been made. Corrections or additional notes have been inserted within brackets or footnotes. Blanks appearing in the transcripts reflect blanks in the original. A bracketed question mark indicates that the word or words preceding it represent(s) a guess by me. The word 'illegible' or 'indecipherable' appearing in brackets indicates that at the time I made the transcription, I was unable to decipher the word or phrase in question. Only materials pertinent to the military service of the veteran and to contemporary events have been transcribed. Affidavits that provide additional information on these events are included and genealogical information is abstracted, while standard, 'boilerplate' affidavits and attestations related solely to the application, and later nineteenth and twentieth century research requests for information have been omitted. I use speech recognition software to make all my transcriptions. Such software misinterprets my southern accent with unfortunate regularity and my poor proofreading skills fail to catch all misinterpretations. Also, dates or numbers which the software treats as numerals rather than words are not corrected: for example, the software transcribes "the eighth of June one thousand eighty six" as "the 8th of June 1786." Please call material errors or omissions to my attention.]

State of South Carolina Greenville district

On this 15th day of July 1853 personally appeared Daniel Bailey of the district in State aforesaid and made oath that: he was a soldier of the Revolution, that many years ago he employed a man by the name of Alex Hogg or Hougue to obtain his pension from the United States for his services in said, that his attorney kept his papers or made no report to him as to the result, that in consequence he has been deprived of making the proof, required by the pensions department, that his papers have been on file many years until his comrades in arms have all died and that he knows of no one living who served with him, that from extreme old age and loss of memory (being now between ninety and one hundred years of age) he has lost sight of many of the events of that period, and which are only brought to mind by the marks of wounds received in the field of battles and disability of body by hardships and exposure in the service of that day, that his life is near a close, and that the liberty achieved (in which he acted his part) is his reward.
