We the subscribers practising physicians of Frederick County do hereby certify that after a careful examination in the case of Samuel B. White who is now on the Pension Roll of the State of Maryland we are of opinion that his disability does still continue from a wound received through the abdomen left kidney & back bone and further that the degree of disability under which he labours at present is total it being no less than the original degree of disability from which he was placed on the Pension Roll, and in our opinion the disability of the said Pensioner cannot either in whole or in part ever be removed.
