[Methodology: Spelling, punctuation and/or grammar have been corrected in some instances for ease of reading and to facilitate searches of the database. Where the meaning is not compromised by adhering to the spelling, punctuation or grammar, no change has been made. Corrections or additional notes have been inserted within brackets or footnotes. Blanks appearing in the transcripts reflect blanks in the original. A bracketed question mark indicates that the word or words preceding it represent(s) a guess by me. The word 'illegible' or 'indecipherable' appearing in brackets indicates that at the time I made the transcription, I was unable to decipher the word or phrase in question. Only materials pertinent to the military service of the veteran and to contemporary events have been transcribed. Affidavits that provide additional information on these events are included and genealogical information is abstracted, while standard, 'boilerplate' affidavits and attestations related solely to the application, and later nineteenth and twentieth century research requests for information have been omitted. I use speech recognition software to make all my transcriptions. Such software misinterprets my southern accent with unfortunate regularity and my poor proofreading skills fail to catch all misinterpretations. Also, dates or numbers which the software treats as numerals rather than words are not corrected: for example, the software transcribes "the eighth of June one thousand eighty six" as "the 8<sup>th</sup> of June 1786." Please call material errors or omissions to my attention.]

State of Tennessee, Claiborne County

On this fourth day of February 1839 personally [appeared] in open Court before the Justices holding said Court for the County and State aforesaid and now sitting Francis Antrican resident of the County of Grainger aged seventy five years of age and perhaps seventy six who being first duly sworn according to law doth on his oath make the following declaration in order to obtain the benefit of the Act of Congress passed June the 7<sup>th</sup> 1832.

He states that he entered the service in State line of North Carolina under Captain Thomas Donohough [sic, Donoho] about the 25<sup>th</sup> of April 1781 in the first Regiment of State Troops commanded by Colonel Henry Dickson [sic, Henry Dixon] and General Sumner's Brigade at Orange Courthouse in North Carolina and was marched to Oxford and from thence to the Siege of Ninety Six in South Carolina where we joined the Continental Army under General Green [sic, Nathanael Greene] which was the spring after the battle of Guilford Court house fought by Generals Green & Morgan against Cornwallis. We was ordered on to Ninety Six to reinforce General Greene; and at the Siege of Ninety Six we lost over hundred men and did not then take the place; this was in the month of May a little after the middle of the month after this General Greene marched his command, both continentals and State Troops to the high hills of Santee and the British retired to the Eutaw Springs and in the early part of the fall we fought the battle of the Eutaw Springs against Lord Rodden [sic, Rawdon] General Greene commanded in person a hard battle and we took upwards of a thousand prisoners there; this battle was a little past the middle of September the same year after I enlisted or volunteered. This place is about 40 miles above Charleston where the British returned and we returned to the high hills of Santee again. When we got there Captain Donoho who was made Major after the battle of the Eutaw Springs commanded the detachment that carried the prisoners up to Salisbury North Carolina where the prisoners was put in charge of a detachment of Militia who took them on as I understand to Virginia and we was ordered back to join the Main Army again we went on by Cheraw and then to the high hills of Santee we remained there until winter and then our detachment was ordered on to a place called the round O and horse shoe these two last places are close together from this last place we was marched to a noted place called Bacon's bridge in South Carolina where I remained in the service until the latter part of May 1782 when my time was out being a twelve months tour but stayed in service a month over my term of enlistment before I was discharged being thirteen months; about this time there was orders for a few companies of volunteer cavalry to be raised for North Carolina scouting service to keep under the Tories that was constantly doing mischief and plundering the Country; when we were marched away about on the first of June and marched into North Carolina to a place called Cross Creek where Fayetteville now stands or about the place; we was now under a Major Allen from North Carolina this enrollment was for twelve months unless sooner discharged. I served about ten months in this service against the Tories for at this time there was no bullying in these quarters; and was all discharged by our commander Major Allen in both of these tours. I got a written discharge the first was washed up in my jacket pocket and the other in the lapse of years was lost and I know not what became of it. The first tour my discharge was given by Colonel Henry Dixon and the last by Major Allen as before stated.

I then returned home to Orange County North Carolina about fifteen miles below the Court house and moved in the upper part of the County fifteen or eighteen miles above the Courthouse and lived there five years and then moved to a place called [no name stated] in Tennessee now Greene County Tennessee near a place called Babb's Mill; where in the month of September 1793 on or about the first of the Month I joined a company under Captain John Casey Ordered out by General Sevier [John Sevier] to go against the Cherokees down on the Holston [River] we met and was enrolled and marched from this place not far from where Greenville town now Stands to a place called Cashias Station on the South side of Holston River we remained there to keep a lookout some time and was marched over the River to Campbell's Station and occasionally on the Scout and after the end of three months which was the term of time we was called out for, we was marched back to Greene County and discharged by Captain Casey having received a discharge and certificate for three months and seven days Services; Again I was called out on a two months Tour and met the first of March 1794 and

marched to Paint Rock near the Carolina line and then the edge of the Nation on French Broad River and discharged at the end of two months Lieutenant Conoway [sic, Conway?] commanded the Company; again in November the same year I was called out again under Lieutenant Nathan Veach and served two months at Paint Rock as well as my recollection; Again I was ordered out by Colonel Hill this last tour I headed the company of about 40 men and marched them to Roof's Station on the French Broad and remained there until the two months was out at this time we was all frontier men and minute man as pioneers to save the scalps of our wives and little children making in all nine months and seven days in the different tours against the Cherokee Indians for all of which I had certificates for my services when added to my former services against the British makes 32 months and seven days this last tour was in the fall of 1795 he states that the certificates for his Indians services and the deposition of a Mr. Counts of Grainger County and a Mr. Goings of Hawkins County which proved his services against the British was put into the hands of a Mr. Alexander who he employed in 1833 to attend to the business who neglected to attend to it as it ought to have been done he then employed General John Cocke to attend to it and after a while he told me he could not and to get a Mr. William Winston of Hawkins County a lawyer who neglected it from time to time and at last moved to Alabama and then last of all I employed a Mr. Louis Mitchell Esq. of Hawkins County and who as I understand got the papers spoken of Mr. Winston and about 18 months ago moved to the West somewhere I think to Arkansas and the business has been canceled from one to another until my papers are lost so that I cannot get or find them which will account for the loss of my papers Mr. Counts and Goings are both now dead; and although I have been trying to get the business done from the time I had a knowledge of the law from my entire ignorance of the manner it had to be done and the neglect of those he employed and being put off from time to time as before recited answer the inquiry why I have not applied sooner for my rights under the law and why I cannot now produce any documentary evidence he states that he lived in Greene County 18 or 19 years and moved to Hawkins County Clinch Valley where he has lived 32 or three years and within a few miles of where he now resides across the County line in Grainger County in the same neighborhood, where he has lived a year or better; he would state that he knows of no living witness that he can prove all his Services by but believes that he will be able to throw some light on the subject by the Testimony of John F. Imes which will accompany this declaration so as to place his case beyond suspicion; he neglected to state before that General Sevier commanded & ordered all the expeditions as chief commander of all the Indian expeditions; and now hereby relinquishes every claim to a pension or annuity whatever except the present and declares that his name is not on the pension roll of the United States or of the agency of any State whatever; and revokes all agencies [and] powers of attorney to other persons heretofore employed to attend to this business for me except my present agent Dr. A. Noel of Tazewell who is fully authorized to manage the whole business for me in as ample a manner as if I was personally present myself Sworn to and subscribed this day and year first written.

State of Tennessee, Claiborne County

Francis Antrican the within named applicant for a pension maketh oath in open court that the reason of his making his application in the Court of Claiborne in the place of Grainger court is that his agent Dr. A. Noel was sick and could not attend Grainger Court and that he lives within one quarter of a mile of this County line and as well acquainted in the County of Claiborne and the people with him as Grainger & it is also near up to the Courthouse of Claiborne than to that of Grainger. These all my reasons for making my application here. Sworn and subscribed to this fourth of February 1839.
