[Methodology: Spelling, punctuation and/or grammar have been corrected in some instances for ease of reading and to facilitate searches of the database. Where the meaning is not compromised by adhering to the spelling, punctuation or grammar, no change has been made. Corrections or additional notes have been inserted within brackets or footnotes. Blanks appearing in the transcripts reflect blanks in the original. A bracketed question mark indicates that the word or words preceding it represent(s) a guess by me. The word 'illegible' or 'indecipherable' appearing in brackets indicates that at the time I made the transcription, I was unable to decipher the word or phrase in question. Only materials pertinent to the military service of the veteran and to contemporary events have been transcribed. Affidavits that provide additional information on these events are included and genealogical information is abstracted, while standard, 'boilerplate' affidavits and attestations related solely to the application, and later nineteenth and twentieth century research requests for information have been omitted. I use speech recognition software to make all my transcriptions. Such software misinterprets my southern accent with unfortunate regularity and my poor proofreading skills fail to catch all misinterpretations. Also, dates or numbers which the software treats as numerals rather than words are not corrected: for example, the software transcribes "the eighth of June one thousand eighty six" as "the 8<sup>th</sup> of June 1786." Please call material errors or omissions to my attention.]

Berryman Jones –Served 18 mos. has drawn \$180

I the undersigned Berryman Jones having been called on by W. G. Singleton agent of the Pension office for a narrative of my Revolutionary Services and Statement of my age, give the following to wit – from the best information in my possession I am in my 77<sup>th</sup> year of age and a native of Amherst County Virginia and resided in the County of Augusta during the War of the Revolution – Shortly after I was put on the muster rolls but I can't tell in what year I Substituted in the place of my elder Brother Valentine, we marched from Augusta County under James Tate Captain, John Crawford Lieutenant & Michael Coulter Ensign – Captain Buchanan's Company went from same place & at same time. We rendezvoused at Staunton, went through Williamsburg & Saulsbury [sic, Salisbury] and Joined General Daniel Morgan in Carolina, but can't recollect at what place, our companies ( to wit Tates' & Crawford's) were rifle companies and were consequently generally stationed some distance from the Main Army, we were moved about from place to place the names of which I can't now recollect – but finally got to the Cowpens where we had an engagement with Tarleton's men in which they were defeated – Morgan commanded the American Army – the day after the Battle we moved the

prisoners to Salisbury and were there discharged, after being six months in Service.

Immediately after my return, there was a general call for the Militia, to meet Cornwallis who was pursuing & endeavoring to retake the British prisoners captured at the Cowpens. I volunteered and marched from same County under same Captain. We went to Guilford Court House and Joined General Morgan's Army where a battle took place in which the Americans were beaten. I think that General Morgan was the only General officer at the Battle of Guilford Court house. I don't recollect that there was any other General – we volunteered for an indefinite time. After the Battle was over we returned home. I was in this service at least six weeks – in a few days after my return from Guilford Court House I was drafted for two months – marched from same County under Captain James Bell, there were several companies went at same time under Major Wilson. This was in the Summer [illegible word or words]. We went through Richmond to James town where we had a smart engagement – we remained at Jamestown and about there for the two months. We Joined General [illegible name] Army at James town – I can't tell the year in which this or any of my Services was performed – returned home & remained only two or three days and was again drafted for two months marched from same County (I think under Captain Michael Coulter) some three or four companies were from same County or same town & that the same Major Wilson commanded. We went on to James town and Hot Water. Joined General Wayne at Jamestown. We were [indecipherable word] in or about James town for the two months – returned home and had been at home for a few days only when I was drafted again for two months, we marched from same County under Captain Patrick Buchanan several companies [indecipherable word] from same County at this time. I think there was a Major but am not certain & if there was I can recollect his name. – We went on through Williamsburg to Yorktown and was in the engagement which resulted in the capture of Cornwallis, his Army went with the Prisoners to the Winchester Barracks. I don't recollect the number of my Regiment or the name of my Colonel. I remained in service in this tour for three months although only drafted for two – in the Summer after Cornwallis was captured I served two tours of two months each in Taggart's Valley [Tygart's Valley] against the Indians, we went from Augusta under Captain John McKissick was at Warrick's Fort under Colonel Randolph – also served about four weeks at Staunton guarding the Tories – thus ended my Service. I proved my services in part & James Bolen wrote my Declaration to whom I gave the same [several indecipherable words] he charged me \$10 – In Witness of all which I hereto Subscribe my name. January 19, 1835.

Sir,

Yours of the 9<sup>th</sup> Ultimo asking me to return my pension certificate with some explanations as to some objections made to my former declarations.

You say that my declaration is ironious [sic] in setting forth that I substituted and served six months for my brother. I substituted to serve my brother's Tour of duty and was marched to North and South Carolina and was under General Morgan as commander in chief and after I had served three months, I was continued in the service three months longer in all six months. My first three months service was out before the battle of the Cowpens and about the time there appeared a considerable danger and the whole company was detained on account [of] the danger and I understood that the commander in chief had a right to detain the militia in service when there was danger. Such was said in the Army and believed by the men. I was in the battle at the Cowpens, after that battle I was one that

aided in marching the prisoners to Salisbury. I feel satisfied that I served six months during this time. I will refer you to the affidavit of Samuel Sams.

You say that there is another error in the time I served in the [sic] 1781 as the militia were not detained in Service after the Battle of Yorktown. I was detailed in the County of Augusta and had to march to Yorktown upwards of 200 miles. I was there or in the neighborhood of York some time beyond the battle of York and was in the Siege during the whole time. I was then detailed to aid in guarding the prisoners and marching them to Winchester which is upwards of 200 miles from Yorktown. I did not keep any correct account of time but in my opinion I did serve this tour full three months.

You say that I set forth in my declaration that I served one tour against the Indians. I do not now recollect particularly what is said in my declarations but I distinctly recollect that I served two tours – the first one I was called out early in the Spring the other a short time after I got home the reason I went so soon news reached that depredations had been committed by the Indians. Samuel Cark [sic, Clark?] I believe proves one tour.

You will find my certificate returned to you to do as you may think best.

Your Obedient Servant
