[Methodology: Spelling, punctuation and/or grammar have been corrected in some instances for ease of reading and to facilitate searches of the database. Where the meaning is not compromised by adhering to the spelling, punctuation or grammar, no change has been made. Corrections or additional notes have been inserted within brackets or footnotes. Blanks appearing in the transcripts reflect blanks in the original. A bracketed question mark indicates that the word or words preceding it represent(s) a guess by me. The word 'illegible' or 'indecipherable' or 'undeciphered' appearing in brackets indicates that at the time I made the transcription, I was unable to decipher the word or phrase in question. Only materials pertinent to the military service of the veteran and to contemporary events have been transcribed. Affidavits that provide additional information on these events are included and genealogical information is abstracted, while standard, 'boilerplate' affidavits and attestations related solely to the application, and later nineteenth and twentieth century research requests for information have been omitted. I use speech recognition software to make all my transcriptions. Such software misinterprets my southern accent with unfortunate regularity and my poor proofreading skills fail to catch all misinterpretations. Also, dates or numbers which the software treats as numerals rather than words are not corrected: for example, the software transcribes "the eighth of June one thousand eighty six" as "the 8th of June 1786." Please call material errors or omissions to my attention. Researchers should not rely solely on the transcripts but should review the originals for themselves. These transcripts are intended as an aid to research, not to be used in lieu thereof.]

State of North Carolina Secretary of State's Office

I William Hill Secretary of State in and for the State aforesaid, do certify, that it appears from the musterrolls of the Continental line in this State in the revolutionary war, that Thomas

² James Hogun was an officer in the North Carolina Continental line. Born in Ireland (date unknown), he settled in Halifax County, North Carolina in 1751. He was appointed a major in the Halifax militia on April 22, 1776. On November 26, 1776 he was appointed the colonel of the Seventh North Carolina Continental Regiment and was with Washington at the Battles of Brandywine and Germantown. In 1778 he recruited a regiment of North Carolina Continentals which he marched to White Plains but was soon ordered to West Point to help build the fortifications there because his regiment was too poorly armed to serve in combat. On January 9, 1779, Hogun was voted a Brigadier General by the Continental Congress and on March 19, 1779, he succeeded Benedict Arnold as commandant of Philadelphia. In late 1779, he marched his brigade to Charleston, South Carolina to participate in the defense of that town and was taken prisoner there when Charleston was surrendered on May 12, 1780. Imprisoned at Haddrell's Point, he refused the British offer to be paroled declaring that he would suffer the same hardships as his men. It is thought that his real reason for refusing parole was his fear that his men would be recruited by the British to fight in the West Indies. Hogun's health failed him at Haddrell's Point and died there on January 4, 1781. William S.
