[Methodology: Spelling, punctuation and/or grammar have been corrected in some instances for ease of reading and to facilitate searches of the database. Where the meaning is not compromised by adhering to the spelling, punctuation or grammar, no change has been made. Corrections or additional notes have been inserted within brackets or footnotes. Blanks appearing in the transcripts reflect blanks in the original. A bracketed question mark indicates that the word or words preceding it represent(s) a guess by me. Only materials pertinent to the military service of the veteran and to contemporary events have been transcribed. Affidavits that provide additional information on these events are included and genealogical information is abstracted, while standard, 'boilerplate' affidavits and attestations related solely to the application, and later nineteenth and twentieth century research requests for information have been omitted. I use speech recognition software to make all my transcriptions. Such software misinterprets my southern accent with unfortunate regularity and my poor proofreading fails to catch all misinterpretations. Also, dates or numbers which the software treats as numerals rather than words are not corrected: for example, the software transcribes "the eighth of June one thousand eighty six" as "the 8th of June 1786." Please call errors or omissions to my attention.]

The State of Ohio, Gallia County

After the battle the Regiment was marched to the Moravian Towns to guard the prisoners taken in the battle and at that place this declarant served out the six months and was honorably discharged at the Moravian Towns by Colonel Cleveland; he received a written discharge which was burned in his house as aforesaid. [Veteran was pensioned at the rate of \$80 per annum commencing March 4th, 1831, for service as a private for 2 years in the Virginia militia.]

[Note: 9 My understanding of this veteran's testimony would be that he has confused the timing of the various engagements in which he states he was engaged and the officers under whom he served at those engagements. For example, the battle of the Shallow Ford occurred on October 14, 1780. The Montgomery militia was there and one of the officers who served in that engagement was Captain George Parris who was wounded in the engagement. Benjamin Cleveland of North Carolina was not at that engagement; the commanding officer at that engagement was Major Joseph Cloud. The battle of Kings Mountain occurred on October 7, 1780. I could not identify any of the officers named in the veteran's application as having been at the battle of Kings Mountain other than Colonel Benjamin Cleveland and Colonel William Campbell.]
