[Methodology: Spelling, punctuation and/or grammar have been corrected in some instances for ease of reading and to facilitate searches of the database. Where the meaning is not compromised by adhering to the spelling, punctuation or grammar, no change has been made. Corrections or additional notes have been inserted within brackets or footnotes. Blanks appearing in the transcripts reflect blanks in the original. A bracketed question mark indicates that the word or words preceding it represent(s) a guess by me. The word 'illegible' or 'indcipherable' or 'undeciphered' appearing in brackets indicates that at the time I made the transcription, I was unable to decipher the word or phrase in question. Only materials pertinent to the military service of the veteran and to contemporary events have been transcribed. Affidavits that provide additional information on these events are included and genealogical information is abstracted, while standard, 'boilerplate' affidavits and attestations related solely to the application, and later nineteenth and twentieth century research requests for information have been omitted. I use speech recognition software to make all my transcriptions. Such software misinterprets my southern accent with unfortunate regularity and my poor proofreading skills fail to catch all misinterpretations. Also, dates or numbers which the software treats as numerals rather than words are not corrected: for example, the software transcribes "the eighth of June one thousand eighty six" as "the 8<sup>th</sup> of June 1786." Please call material errors or omissions to my attention. Researchers should not rely solely on the transcripts but should review the originals for themselves. These transcripts are intended as an aid to research, not to be used in lieu thereof.]

State of North Carolina Halifax County

On this 24th day of June 1844 personally appeared before the subscriber one of the justices of the Court of Pleas and Quarter Sessions in and for said County, John Land a resident of North Carolina in the County of Halifax aged 40 years, who being first duly sworn according to law doth on his oath make the following declaration in order to obtain the benefit of the provision made by the act of Congress July 7, 1838, entitled "An act granting half pay and pensions to certain widows:" That he is the son of Lamon Land who was a soldier of the Revolution and served three years, he was in the service in the year 1777 and remained in it until just before he was married. He further declares that his Father was married to his mother in 1780 and he died in July 1824 and his mother Mrs. Willy Land died in October or November 1839, that she was not married before the war but the marriage took place previous to the first day of January 1794 as above stated.

State of North Carolina Halifax County: The affidavit of Warrick Hockaday taken to prove the services of Lamon Land in the war of the Revolution this affiant being first duly sworn according to law testifies and says that he was well acquainted with Lamon Land that he enlisted 1777 and was from home 12 months and returned and that he was from home & again in the service in 1778 but for what length of time this affiant cannot state. Lamon Land was an apprentice to Col. Sam Weldon and I have heard that he entered the service to get clear of serving out his time with Col. Weldon.

I well know that he married a very short time after he returned home. He married Willy Johnson and they lived together as man and wife until the day of his death which took place in July 1824 and his widow never married again but remained a widow until the day of her death which took place in the month of October or November 1839.

He is well acquainted with John Land who is now applying for a pension he is the

youngest child of Lamon and Willy Land -- their oldest child would be 60 years old or thereabouts if now living.

I feel no hesitation in saying that I am well convinced that Lamon Land did serve as above stated.
