[Methodology: Spelling, punctuation and/or grammar have been corrected in some instances for ease of reading and to facilitate searches of the database. Where the meaning is not compromised by adhering to the spelling, punctuation or grammar, no change has been made. Corrections or additional notes have been inserted within brackets or footnotes. Blanks appearing in the transcripts reflect blanks in the original. A bracketed question mark indicates that the word or words preceding it represent(s) a guess by me. The word 'illegible' or 'indecipherable' appearing in brackets indicates that at the time I made the transcription, I was unable to decipher the word or phrase in question. Only materials pertinent to the military service of the veteran and to contemporary events have been transcribed. Affidavits that provide additional information on these events are included and genealogical information is abstracted, while standard, 'boilerplate' affidavits and attestations related solely to the application, and later nineteenth and twentieth century research requests for information have been omitted. I use speech recognition software to make all my transcriptions. Such software misinterprets my southern accent with unfortunate regularity and my poor proofreading skills fail to catch all misinterpretations. Also, dates or numbers which the software treats as numerals rather than words are not corrected: for example, the software transcribes "the eighth of June one thousand eighty six" as "the 8th of June 1786." Please call material errors or omissions to my attention.]

[Note: the memorial filed by the heirs is illegible as posted online]

Wood Jones was commissioned a first Lieutenant of Captain Edward Mead's Company of the 2nd Virginia Continental Regiment on the 8th of March 1776; and was promoted a Captain of a Company of the same Regiment on the 25th of December 1776. See the certification from the State Department at Washington here with file. On the 21st of October 1824, after Captain Jones had been many years dead, a warrant was issued to his heirs for 2666 acres of Bounty Land, in consideration of his services as a Lieutenant only. His heirs now exhibit the evidence of the period at which their ancestor entered the service, and of his rank as Captain, and referring to the vouchers on file in the Executive Chambers on which the allowance was made in 1824, to show that he served to the end of the war, they asked for the land due a Captain from the [one or more words too faint to discern] a service from the 8 March 1776, until the 3rd of November 1783 when the war ended, after deducting the former allowance.

Lieutenant 2nd Virginia Regiment

Virginia, Halifax County, September 11, 1824

I do hereby Certify that while I was in the First Regiment of Light Dragoons raised in Virginia, and under the command of Colonel Theodorick Bland, and afterwards on Continental establishment, and with the Army under General Washington, I was well and intimately acquainted with Captain Cuthbert Harrison commanding one of the troops of said Regiment, and understood to have been raised by him and that from some time in the summer of 1776, when my knowledge of him as an officer first commenced until June 1779, he retained, and acted as a
Captain in the said Regiment his Office aforesaid. I further certify that the said Cuthbert Harrison marched with the same Regiment when ordered to South Carolina as I have always understood and that the last of my personal knowledge of him as an Officer aforesaid was at Petersburg in Virginia when in June or July 1779 the Regiment aforesaid was on its march to the South, where I have reason to believe he continued to serve as a Captain of Cavalry.
